Brisa[®] 6" multipiece retaining wall system

Get the random look of natural stone with the new Brisa[®] 6" multipiece wall systems. With a design inspired by split limestone, the Brisa 6" multipiece retaining wall system is an attractive alternative to traditional retaining wall blocks. Its elegant design provides remarkable versatility for any outdoor project. A complementary freestanding wall product completes the system.

Ideal for most residential projects, the retaining wall product can be used to create curved or straight walls, fire pits, flower beds, garden planters, garden walls, vegetable gardens, outdoor kitchens, planters, raised gardens, raised patios, steps and terraced walls.

The Brisa freestanding wall system offers beauty, simplicity and design flexibility with the look of hand-carved natural stone. Use it to create curved or straight walls, seating walls, parapet walls, courtyards and grill surrounds.

Retaining wall system

- Can be used to build gravity walls up to 3 feet high, including buried course, but excluding the cap.* Taller walls can be built using geosynthetic reinforcement or the Anchorplex™ retaining wall system when designed by a qualified engineer.
- Minimum outside radius, measured on the top course to the front of the units: 4 feet.**
- Minimum inside radius, measured on the base course to the front of the units: 8 feet.**

Freestanding wall system

- Can be used to build walls up to 3 feet high, including buried course, but excluding the cap.
- Minimum radius using all three units: 4 feet.**

*This height assumes level backfill and clean, compacted sand or gravel and no surcharge.

**May vary depending on the installation pattern.
