

PRODUCT INFORMATION

The bold look and easy installation of the Hampton Stone<sup>®</sup> retaining wall system have made it the obvious choice for residential and light-commercial wall projects. Now, the Hampton Stone Cut<sup>™</sup> face style offers a more natural appearance that increases the versatility of this landscaping tradition.

Created at the request of the very contractors who rely on the rugged dependability of Hampton Stone blocks, the new Hampton Stone Cut face brings warmth and character to any landscaping project. With a richly textured look, this new face style offers all the tried-and-true features of Hampton Stone blocks. The rear-lip locator makes uniform installation and reduced labor costs possible. Coupled with the optional step and cap accessories, the expanded versatility of Hampton Stone walls means more design freedom than ever before.

- Build gravity walls up to 3 feet 6 inches high, including buried course, but excluding the cap\*
- Taller walls can be built using geosynthetic reinforcement or the Anchorplex<sup>™</sup> retaining wall system when designed by a qualified engineer
- Minimum outside radius, measured on the top course to the front of the units: 2 feet 5 inches
- Minimum inside radius, measured on the base course to the front of the units: 4 feet

*\*This height assumes level backfill and clean, compacted sand or gravel and no surcharge.*

# Hampton Stone Cut™

RETAINING WALL SYSTEM

## PRODUCT INFORMATION

**No pins. No mortar. No misalignments.** Rear-lip locator, invented by Anchor, makes installation fast and accurate. Anchor – the original rear-lip product!
