

6" RETAINING WALL PRODUCT INFORMATION

The Highland Stone[®] retaining wall system combines earthen tones, rich textures, varied contours and all the advantages of the rear-lip locator, making it a reliable and easy-to-install alternative to natural stone walls. Use of Highland Stone units creates stunning retaining walls.

- Available in three face lengths
- Can be used for gravity walls up to 4 feet 6 inches high, including buried course, but excluding the cap*
- Original rear-lip locator
- Taller walls can be built using geosynthetic reinforcement or the Anchorplex[™] retaining wall system when designed by a qualified engineer
- Minimum outside radius, measured on the top course to the front of the units: 4 feet**
- Minimum inside radius, measured on the base course to the front of the units: 8 feet.**

**This height assumes cores are filled with drainage aggregate, level backfill and clean, compacted sand or gravel and no surcharge.*

***May vary depending on the installation pattern.*
