Belgard products are specially manufactured under the highest possible standards, meeting or exceeding ASTM-C936-01. Our elements are rigorously and comprehensively checked daily through a series of tests ranging from resistance to temperature extremes, the effects of de-icing salts, load-bearing capacity and more. When it comes to durability, Belgard pavers are designed and manufactured to withstand the elements and resist cracking.

Belgard is a member of the ICPI and NCMA and complies with or surpasses the standards of both organizations.
