StoneHedge® 6

The Advantages of the StoneHedge® System...

It's Fast... The uncomplicated design of StoneHedge® 6 utilizes a 4" x 2" Anchor Bar on the bottom of each unit for precise vertical alignment, making installation quick and easy.

It's Simple... Prepare the base, set the block, and build a limitless number of applications. With StoneHedge's one-unit construction method you can easily build privacy walls, partition walls, pillars, seat walls, light posts, and more!

It's Strong... Upon construction, StoneHedge 6 blocks create 6" x 2.5" cores. When filled with gravel, these cores create vertical "stone columns" allowing you to build up to 6 feet high without reinforcement.

It's Versatile... By simply cutting StoneHedge 6, inside and outside radius curves are easily accomplished. Plus, StoneHedge 6 integrates with both Rockwood Classic® 6 and Classic® 8 with PCS™, making it one of the most versatile landscaping products available.

StoneHedge® 6 Block

Unit specifications, availability, color, and fascia options vary by manufacturer. Please contact your nearest Rockwood manufacturer or dealer for more information.

Double Sided, Straight Split

Size: 6" H x 18" W x 10" D
