The Celtik Collection's time-honed appearance belies its very modern composition.

Rough-hewn textures and natural hues give the Celtik Collection a time-honed appearance reminiscent of classic European gardens. Celtik Wall's ancient look is complemented by modern manufacturing, which yields precise dimensional consistency, offering the perfect companion to your paver design, landscape contours, and garden borders.

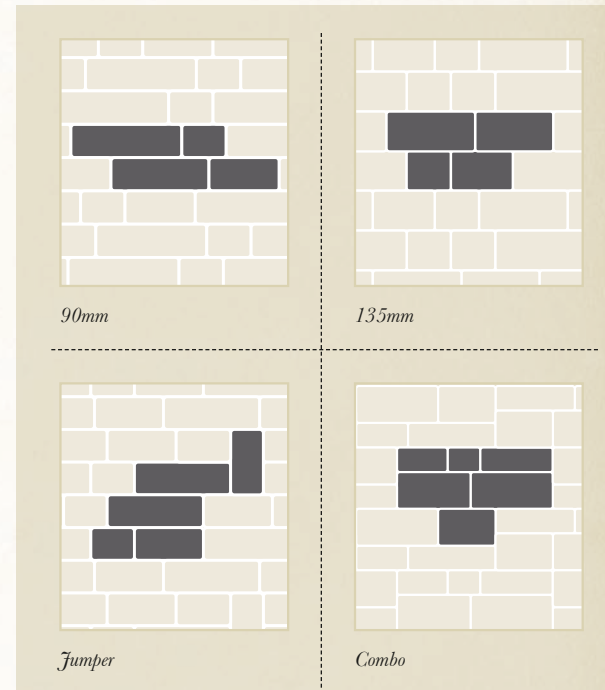

Belgard walls are specially manufactured under the highest possible standards, meeting or exceeding ASTM C-1372. Our elements are rigorously and comprehensively checked daily through a series of tests ranging from resistance to temperature extremes, the effects of de-icing salts, load-bearing capacity and more. When it comes to durability, Belgard walls are designed and manufactured to withstand the elements and resist cracking.

Belgard is a member of the ICPI and NCMA and complies with or surpasses the standards of both organizations.
