*A better way.™*

## Necessaries™ is a unique line of easy-to-build outdoor living kits from Rockwood® Retaining Walls and Silver Creek Stoneworks™...

---

Each Necessaries outdoor living kit comes complete with Rockwood Retaining Walls' multi-piece, tumbled Lakeland and Riverland wall system, creating the enviable look of an old-world country estate. Lakeland's and Riverland's earthy colors and aged appearance can enhance the architectural style of any home.

Also included are Silver Creek Stoneworks' limestone mantels and tops with hand chiseled edges. Molded from limestone quarried and cut in the upper Midwest, Silver Creek limestone has a look and feel so natural, it will be adored by you, admired by family and envied by neighbors.

Each Necessaries outdoor living kit comes palletized with everything you need to build, including pre-cut block, adhesive and course-by-course instructions. These easy-to-build outdoor living kits take the guesswork and hassle out of hardscape construction.

*No cutting, no guessing, no hassles — no problem!*

## There's nothing quite like the warmth and glow from a crackling fire in your own backyard living room...

At more than eight feet high and up to twelve feet wide (with select options), the Grand Fireplace is the perfect centerpiece for your outdoor living room. Its appeal comes from its large profile, universal design and aged appearance. Features include a Lennox Hearth Products Merit™ Plus 36" stainless steel wood-burning fireplace insert. Backed by the Good Housekeeping seal of approval, the Merit™ Plus 36" fireplace is specially designed for continued outdoor use. Its durable stainless steel construction provides exceptional weather resistance, ensuring many years of carefree enjoyment. Comes gas-log ready.

*NOTE: Before planning your Grand Fireplace project, check with your local zoning commission for building restrictions and required construction permits.*

Stack up the wood, get out the roasting sticks, kick back and enjoy the glow...

No matter what your locale, there will always be cool evenings to enjoy the warmth of a backyard fire. Necessary's fire rings add charm to any backyard design and because they are made with high-quality Rockwood fire ring block, they will last indefinitely.

**Fire Rings**

- 48" W x 12" H (31" interior dia.)
- Heavy gauge steel insert protects block
- Optional swivel cooking grate

**Standard Features**

- Easy to assemble, course-by-course instructions
- Super-Stik adhesive included
- Rockwood's Fire Ring block

**Necessaries smores recipe:**

You will need just three ingredients. The first is large marshmallows. If you have lots of neighbors, better buy an armful. Same thing with graham crackers. These are a close second to marshmallows in popularity. Last but not least, milk chocolate bars. May your cupboard never be without chocolate of any type, but semi-sweet milk chocolate works best.

Directions: When the coals in your fire ring have that perfect glow, roast your marshmallow until toasty brown and nearly to fall off your stick. Break a graham cracker in half and sandwich the chocolate between the cracker and the gooey hot marshmallow. Allow this gastronomical masterpiece to cool a moment before enjoying a little bit of perfection. Repeat.

*NOTE: Before planning your Fire Ring project, check with your local zoning commission for building restrictions and required construction permits.*

# Your Landscape Planning Guide

Use this simple guide to help you and your landscape professional create an attractive, comfortable and valuable landscape that you will enjoy everyday.

## The Real Benefits of Landscaping

**Curb Appeal.** It's the best and easiest way to make a good first impression. Most homeowners agree, spending over \$45 billion on professional lawn and landscape services. In fact gardening, in recent years, has become America's #1 pastime, with over 80% of all households participating.

What does this mean to you? Simple — a well designed landscape does more than bring increased value to your home, it brings energy savings as well. More importantly, quality landscaping brings you endless days of enjoyment.

So follow the number one trend in the country, and bring the indoors out — by adding a raised patio, fire pit, or an outdoor kitchen. Regardless of what you do, the enjoyment of the outdoors will reduce your stress and add real value to your home.

## Just follow these 5 simple planning steps:

- 1) Do your homework
- 2) Make a list
- 3) Make a budget
- 4) Sketch your design
- 5) Hire a qualified Landscape Contractor

## 1) Do Your Homework!

Visit our web sites to see backyard patio plans, photos, ideas and MORE! Stop by your local book store or library for books and magazines on landscape designs. You can get ideas for hardscape materials, plants, accents, furniture — everything to help make your planning complete.

## 2) Make a List

Make a list of things you like and dislike. If you hate mowing the lawn or weeding a flower garden, make a note of it. Do you prefer rocks and not mulch? Do you love flowers, but dread replanting every year? Use the space below, and be sure to share this with your qualified Landscape Contractor.

<i>Ideas, Interests, Style and Tastes</i>	<i>Like</i>	<i>Dislike</i>	<i>Maybe</i>

---

---

---

## 3) Make a Budget

When budgeting for a landscaping renovation, plan to invest about 10% of your home's value, according to the American Society of Landscape Architects (ASLA). A more elaborate backyard sanctuary may require 15 to 20%. Much of what you will spend, however, depends on how long you plan to stay in your home. If you plan to stay in your home for more than 10 years, 15 to 20% will give you the enjoyment you desire for years to come.

Homes Value \$ \_\_\_\_\_ x \_\_\_\_\_ %

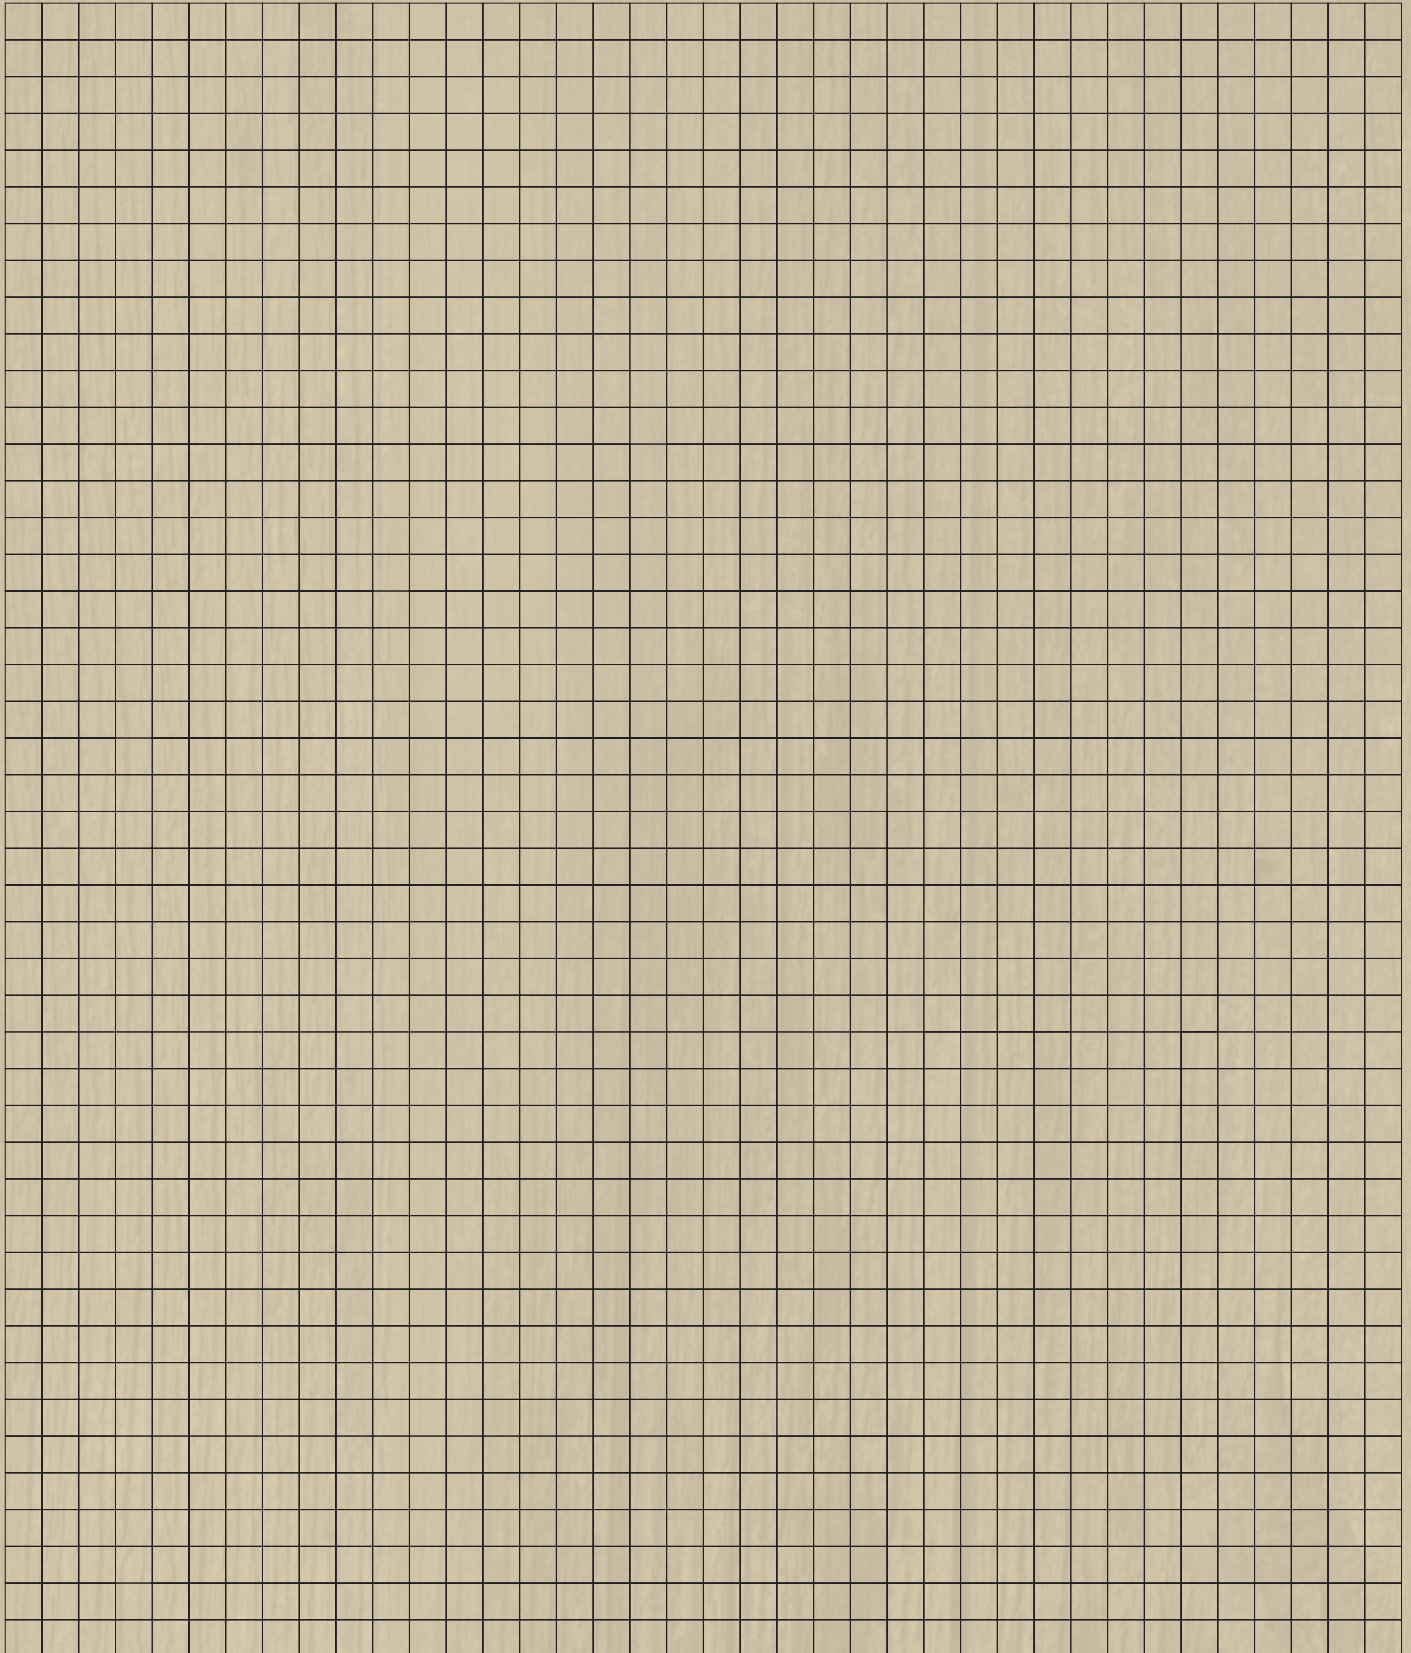

#### 4) Sketch Your Design

Begin by creating a concept in your head, and then put it to paper. A sketch can help clarify your vision and keep you within your budget. Today, landscaping means more than just plants. It includes features such as lighting, fences, garden paths, raised patios, fire pits, ponds and streams, fireplaces, outdoor kitchens, and even outdoor living rooms.

#### 5) Hire a Landscape Professional

Take your measurements and sketches to show your Landscape Contractor what you want to build. They will help you with material selection, costs, and a schedule. With the help of a qualified Landscape Contractor, your dreams will soon become a lasting reality.
