

SILVER CREEK STONEWORKS  
OUTDOOR LIVING COLLECTION

## THE OLD-WORLD LOOK AND FEEL OF NATURAL

Silver Creek's premium landscape products have caught the attention of designers, property owners, and installers alike for their natural stone appearance as well as the convenience, durability, and affordability of concrete.

Available in a wide selection of stones, sizes, and colors, Silver Creek's landscape tiles and pavers are cast in hundreds of unique molds to enhance their natural beauty.

Like our landscape tiles, our pillar caps, seat wall caps, and chiseled steps look just like handcrafted limestone. Their uniform shapes and thicknesses eliminates the installation difficulties of natural stone.

For more information and availability, call or visit us on-line.

**We think and we act green...**

Our manufacturing and corporate culture centers around environmental and economic sustainability. Our continuing efforts to reduce, reuse and recycle does more than reduce costs, it helps us be more responsible to our environment.

**Here are some of the many things Silver Creek is doing as a responsible, eco-minded manufacturer:**

- Source raw materials closest to production locations to reduce transportation costs and carbon emissions.
- Use flex-fuel vehicles to increase energy sustainability.
- Use recycled materials like fly ash, recycled glass and crushed rejected block in our manufacturing process to reduce the impact on our landfills.
- Sort our consumables for reuse and recycling.
- Reduce overall energy use and increase the use of “green” energy.

*Silver Creek is a proud member of the U.S. Green Building Council*

Iron Mountain and Western Buff

**Slate landscape tiles adored by you, admired by family, and envied by neighbors**

Silver Creek has recreated the natural look and feel of hand-split Slate tiles. Slate's rich texture is from actual stones quarried in the Northeastern United States where stone craftsmanship dates back to the early 1800's. Slate's popularity comes from its wide use in patios, walkways and garden paths. Available in five color choices, four sizes plus bullnose.

Sealed Bluestone

**Travertine landscape tiles so rich, elegant and authentic looking, only you will know their true origin**

Silver Creek's Travertine, sourced in Turkey, has the smooth surface and authentic pores of expensive hewn stone. Produced with premium white cement, both Ivory and Kasota Travertine look as if they just came from European quarries. Perfect for pools, patios and walkways. Available in three sizes plus bullnose and in two colors choices.

**Enjoy the ageless appeal of a centuries-worn cobblestone or brick driveway, walk or patio**

Silver Creek's Brick and Cobble Pavers recreate the old-world look of an early American main street. Their rich color and aged appearance are cast from actual brick and cobbles reclaimed from a century old European church.

The uncomplicated appearance and uniform shape of these pavers assure they install like a dream and integrate into any hardscape pattern, design or architecture. Perfect in any setting including paths, patios and driveways.

- Indiana Limestone
- Bluestone (NEW)

## Roof Deck Patios with the Look of Natural Quarried Stone

Commercial and residential architects are creating eco-friendly, attractive patios and green areas both on the ground and on the roof. Aside from creating valuable and attractive outdoor spaces, raised pedestal patios have many benefits; pedestal systems can promote energy efficiency, protect membrane roofing, help reduce noise, hide piping and electrical and allow access to what's below.

### AWS Pedestal System

### **Silver Creek Testing Results:**

- Compressive Strength: 10,000-12,000 psi (ASTM C936)
- Freeze-thaw Cycle Durability: 40 cycles, passed (ASTM C1645)
- Resistance to Surface Flaking: 50g/m<sup>2</sup> (Norm is 500 g/m<sup>2</sup>)
- Flexural Strength: 1,000 psi (Norm is 650 psi)

**You'll love Stonecast Designs' caps and tops for their high quality, appearance and affordability**

We've created a product line to accommodate the demand for more economical hardscape products. These products are made with the same high quality materials and attention to detail as our Silver Creek products. Because these products are designed to maximize manufacturing efficiencies, we can offer them at a lower cost.

Silver Creek's economical tops and caps will save you money. Available in tan or gray.

**Pyramid Pillar Caps:**

Silver Creek products are cast in hundreds of unique molds to enhance the look of natural stone. Each piece is cast from a blended color mix creating a truly one-of-a-kind landscape tile, step or paver.

PLEASE NOTE: When laying your patio or walkway, pull tiles from different pallets to mix the intended color differences created in manufacturing. Always select your final color choice from actual tiles. Contact your distributor for samples.

Tiles are show gloss sealed and natural.

Silver Creek products are made from solid colored concrete for lasting appearance and durability. As with any concrete product, colors can vary widely in production. Photos shown are close representatives of each color.

Always select color from actual samples.

## Silver Creek patio kits take the hassle out of backyard landscaping

Ready-to-build patio kits take the time and hassle out of product estimating and purchasing. We've put a very popular 6' x 12' pattern on a single pallet so you'll never be short or long a tile on your patio or walkway project.

### Patio kit examples:

One 6' x 12' Silver Creek patio kit has 72 sq. ft. on a single pallet. Each pallet has fourteen (12" x 12"), thirteen (12" x 24") and eight (24" x 24") tiles. To create a larger patio, just order additional pallets. You'll use all the tiles so there's no overages, no underages, no cutting — no hassles.

#### Colors:

- Bluestone (Slate)
- Chilton (Slate)
- Prairie Blend (Limestone)
- Iron Mountain (Slate, Limestone)
- Western Buff (Slate, Limestone)

6' x 12' (1 pallet 72 sq. ft.)

12' x 12' (3 pallets 144 sq. ft.)

18' x 12' (3 pallets, 216 sq. ft.)

24' x 18' (6 pallets, 432 sq. ft.)

12' x 24' (3 pallets, 288 sq. ft.)

*Each 6' x 12' Patio Kit fits on a single pallet!*

## Masonry cleaners and protectants

Techniseal offers high-end products that help consumers and contractors clean and protect exterior surfaces. Created in 1984, Techniseal has become a leading manufacturer of polymeric sand and treatment products for the concrete paver industry. Paver manufacturers worldwide recognize the added value of Techniseal's innovative solutions for the installation and care of all hardscape materials.

## How to get started

### 1) Plan your project carefully!

There are a lot of things to take into consideration when planning your project, such as access, drainage, plantings, shade, furniture, utilities, etc. Depending on the scope and scale of your project, landscaping design and construction might be right for the do-it-yourselfer, or more suited for a landscape professional.

Begin by creating a concept in your head, then sketch several designs on paper.

### 2) Choose the tile, color and pattern that's right for your home.

Silver Creek's wide selection of tiles, sizes and colors allow you to create a truly unique environment. Pick the tile, pattern and color that will compliment your existing environment.

### 3) Meet with your professional landscaper/supplier.

Take your measurements and sketches to show your local landscaper/supplier what you want to build. They will help you with material requirements, costs and a schedule. With the help of a landscape professional, your dreams will soon become a lasting reality.

## Caring for your Silver Creek tiles

### Should I use salt to de-ice my tiles?

NO! Over time, salt use will affect the surface and durability of the tiles. Instead, remove ice or snow with a stiff brush or a plastic shovel.

### Can I pressure wash my tiles?

YES. Follow your equipment manufacturer's instructions carefully. Washing your patio too frequently or too strongly can affect the surface of the landscape tiles. Be very careful to not wash sand out from between the joints.

### How often should I clean my tiles?

As often as you feel is necessary. For a thorough cleaning, use an approved concrete/masonry cleaning product to remove discolorations. Chemical cleaners should be used in moderation — used too often, they can damage the surface and affect durability. Consult your paver or landscaping supplier for recommended cleaning products.

### Can I use sealant on my tiles?

YES. Use a high-quality sealer suitable for concrete masonry. Clean surfaces thoroughly and follow manufacturer's application instructions.
